

## **MEETING MINUTES / SYNOPSIS**

MONO COUNTY DEPARTMENT HEAD MEETING

February 28, 2001

This meeting was used as a gauge to see how many departments would be interested in participating in a county-wide GIS project, and what the individual department needs would be. A questionnaire was handed out at this meeting regarding data requests and was to be returned by March 14<sup>th</sup> at a follow-up meeting.

Discussion took place regarding the information presented in the questionnaire, and the initial input can be found on the following page.

# Integrated GIS

## Department Head Input

The following list of items represents each department's initial ideas about what they could either contribute to the GIS, or benefit from the item's presence in the GIS. The list is to serve as a reminder of some of the ideas, and help you with entering items on the attached 'Department GIS Input' page.

### **Sheriff / Emergency Services**

- Location specific information – residence / parcel attributed data pertaining to:
  - Weapon permits, frequency of calls & visits, etc
- Directions to structures or parcels based on a “best-route” scenario
- Pictures of structures
- Hydrant locations
- Flood plain / avalanche areas

### **Assessor:**

- Current / up-to-date base map of parcels
- Deeds
- Structure details - # of floors etc.
- Property characteristics
- Picture of parcels & structures

### **Public Works:**

- Pavement Management System
- 911 & Address system
- Digitized flood information
- SWTR

### **Tax Collector:**

- Business licenses

### **County Council:**

- Public records act – request for information

### **Clerk:**

- Election precincts, etc.
- Supervisor districts
- Districting / redistricting utility
- Special district boundaries (June Lake PUD, etc)

### **Social Services:**

- Similar requests to Sheriff and Emergency Services
- Occupancy Details
- Mental & Public health information
- Demographics

### **Health:**

- Presence / absence information pertaining to:
  - Pools, spas, wells, septic tanks, etc. – specific information attributed to each
- Demographics
- Restaurant information
- Hazardous Materials information
- Permitting
- Disease presence
- Dumps / landfills

### **Energy:**

- Wells
- Geothermal activity information
- Potential wind energy sites?
- Natural resources mappin

## DEPARTMENT GIS INPUT

Please fill this out and bring it to the meeting on March 14<sup>th</sup>!!

DEPARTMENT NAME:

### **Department Wish List:**

This is a space for each department to request what information or data should be included in the first round (15month time period) of the product development. Please list these requests in order of importance, and include the issues you see with including this information into the GIS system.

1.

2.

3.

### **Department Contribution List:**

This space is for each department to list any information they have that could be “relatively easily” integrated into the GIS. These items may or may not be the same ones as above.

1.

2.

3.
